PROFESSIONAL SUMMARY

Backend-focused Computer Science student with hands-on experience building REST APIs, authentication systems, and database-driven web applications using Django and MySQL. Skilled in Python, Django REST Framework, and Git/GitHub with interest in backend engineering and scalable web development.

TECHNICAL SKILLS

Languages : Python , C

Backend: Django , Django Rest Framework

Database : MySQL

Frontend: HTML , CSS , JavaScript

Tools: Git , Github , VS Code

Core CS: Data Structures , Object-Oriented Programming , REST APIs

PROJECTS

Complaint Management System

Tech Stack: Python,Django,Django REST Framework,MySQL,HTML,CSS,JavaScript

- Developed a secure complaint management web application using Python, Django, and MySQL with authentication and role-based access control
- Built REST APIs using Django REST Framework for complaint submission, status tracking, and user management
- Designed and integrated backend database models with frontend components for efficient complaint handling and real-time updates

Brain Tumor Detection System

Tech Stack: Python,PyTorch,CNN,EfficientNetV2,HTML,CSS,JavaScript

- Developed a deep learning-based web application for brain tumor classification using PyTorch and EfficientNetV2
- Implemented image preprocessing, model training, and evaluation techniques to improve prediction accuracy
- Integrated the trained AI model into a web interface for real-time tumor prediction and user interaction

EDUCATION

B.Tech - CSE

Matrusri Engineering College,Hyderabad | 2023 - 2027

CGPA - 8.06 (till 5th semester)

CERTIFICATIONS

- Data Structures and Algorithms - **Infosys Springboard**
- Introduction to Python - **Saylor Academy**
